SUMMARY

Front-End Developer specializing in dynamic, user-focused web applications using frameworks like React and Next.js. Proficient in state management tools such as Redux and styling libraries like Tailwind CSS, with expertise in responsive, high-performance interfaces. Combines prior software testing experience with front-end development to deliver high-quality, scalable solutions. Dedicated to leveraging web technologies to enhance user experiences and foster innovation.

EXPERIENCE

- | | |
|--|----------------------------------|
| Tester | June 2011 – March 2013 |
| <i>Robosoft Technologies Pvt. Ltd, Udupi</i> | <i>Udupi, Karnataka, India</i> |
| <ul style="list-style-type: none">• Collaborated with cross-functional teams to ensure high-quality, bug-free applications by performing System and Functional Testing across various stages of the SDLC.• Maintained and updated test plans, cases, and environments while tracking and reporting defects using defect-tracking tools to ensure timely resolution.• Streamlined testing processes, improving performance and usability while aligning deliverables with organizational standards. | |
| Intern | December 2010 – March 2011 |
| <i>Manipal Digital Systems</i> | <i>Manipal, Karnataka, India</i> |
| <ul style="list-style-type: none">• Designed and developed interactive UIs for desktop application using Adobe Flex 3, ensuring seamless user experience.• Implemented backend functionalities using ASP.NET C-Sharp and SQL Server 2005.• Performed maintenance, testing, and integration of updates for desktop application. | |

EDUCATION

- | | |
|--|--------------------------|
| Master of Computer Applications (M.C.A) | Dec 2014 |
| <i>Indira Gandhi National Open University</i> | <i>Mangaluru, KA, IN</i> |
| Bachelor of Computer Applications (B.C.A) | May 2011 |
| <i>Milagres College, Kallianpur</i> | <i>Udupi, KA, IN</i> |

SKILLS

React (React.js, Next.js, React Native), TypeScript, JavaScript, Redux, Context API, Node.js, Express.js, HTML/CSS, Tailwind, Bootstrap, Material UI, Clerk, MongoDB, MySQL, Firebase, Google Analytics, Figma, Git, Postman, Manual/Integration/Regression Testing

PROJECTS

- Orbit - Task Management System**  | *React JS, Context API, Tailwind CSS, Node.js, Express.js, MongoDB*
- Developed a comprehensive task management system using the MERN stack, featuring a responsive admin dashboard with project, task, and team management, real-time charts, and analytics.
 - Integrated user authentication with secure login, role-based access control, and real-time chat functionality using Firebase Firestore, including emoji reactions and typing indicators.
- AcquireSpace - Real Estate Management System**  | *React JS, TypeScript, Redux, Tailwind CSS, Node.js, Express.js, MongoDB*
- Developed a scalable full-stack real estate management platform featuring a dynamic React JS frontend powered by TypeScript and Redux.
 - Utilized Tailwind CSS for modern styling, with a robust Node.js and Express.js backend connected to MongoDB for seamless data handling.
- ShopSpace - Ecommerce Web Application**  | *React JS, TypeScript, Redux, Tailwind CSS, Stripe Payment Gateway*
- Designed and developed ShopSpace, a feature-rich eCommerce platform using React JS and TypeScript for a responsive and dynamic user experience.
 - Implemented Redux for efficient state management, styled with Tailwind CSS, and integrated Stripe Payment Gateway for secure and seamless transactions.
